

Financing Your Dream Home?

NAHV is an independent mortgage specialist for entrepreneurs.

Mortgage providers require self-employed professionals to meet certain conditions. At NAHV, our advisors know all about the process and what's involved. Thanks to our years of experience in offering fiscal and financial support to business owners, we're here to give you the best guidance and assistance in securing a mortgage.

As a self-employed professional, you need to take care of a variety of financial matters, often with different advisors. NAHV Belastingadviseurs provides a full suite of services, under one roof. In addition to helping you secure a mortgage, we provide future-proof, independent advice on taxes, occupational disability risk, risk of death, and pensions.

Our all-in advice package for self-employed professionals starts at € 2,500. These costs are tax deductible. And, of course, we also offer our services to private individuals. We can help you secure a mortgage for a collective private commissioning (CPO) and Self-Build. Feel free to get in touch with us to learn more about our fees.

If you'd like to meet with one of our advisors to discuss your options, email us at hypotheek@nahv.nl or call us on 020 622 55 09.
